

Infection Prevention for Patients and Visitors

HAND HYGIENE

Patients and visitors should:

- Wash hands with soap and water.
- Use alcohol-based hand rub when available.

RESPIRATORY ETIQUETTE

- Cover coughs and sneezes.
- Dispose tissues appropriately.

ISOLATION PRECAUTIONS

Visitors may be required to wear:

- Masks
- Gloves
- Gowns

WHEN NOT TO VISIT

Avoid visiting if you have:

- Fever
- Cough
- Vomiting
- Diarrhea

INFECTION PREVENTION TIPS

- Follow staff instructions.
- Avoid touching medical equipment.
- Keep patient surroundings clean.
